Give us a chance to locate your hard to find items!

Credit Cards

- Credit Card payments are accepted for new customers prior to credit checks, and will be charged at the time of shipping.
- Credit Cards cannot be combined/used with any discounts.

Do you wish you had a vendor that would stock the parts you need? Give us an opportunity!

Call us at 920-686-0000 (Phone & Fax)
Email mail@amproduct.com

Notes

- Call Donald Zelinski (920) 973-3669 if unable to get through on the other number (920) 686-0000.
- Many parts not listed are available. Please call for prices and availability.
- Larger quantity discounts may be available.
- Parts and prices listed are for wholesale customers.
- Orders may be placed by phone, and email 365 days a year, 24 hours a day.
- Returns must be pre-arranged.
- Our prices are based on your payment being received within our terms. It is not fair to our customers that pay within our terms if we allow late payments. Customers with a history of paying late will have their costs automatically increased by 2%.
- As a service to our customers, AM Products will set up larger shipments to go by truck. We use freight brokers to get the best value for our customers. However, when a truck company changes the class that a shipment is originally set at, this may lead to an additional cost to the customer that we have no control over. When this happens, we will fight for the original amount, but if the truck company will not change the rate, we will have to pass that along to the customer on a separate invoice.
- All truck shipments must be inspected for loss and/or damage immediately and reported to the truck drivers.
- All shortages/damage to package shipments must be reported within 2 weeks of receipt. All cartons must be kept for carrier inspections.

Slip Style (Culligan) Products

Fittings

Male Coupling

Part No.	Description	Price	Price Break
222000LF	3/4" Male Coupling - Inlet Lead Free Brass	\$11.81	100+ \$11.41

270-540	54	6	D1-600-54	339.23	15/16

- (1) Flow rates for 3/4" through 6" flow controllers with flow rates from 5-540 GPM are in increments of 1 GPM See Table B
Flow rates for 1/2" and 3/4" flow controllers for flow rates from 0.25 to 3.5 GPM See Table A
Only flow rates 12, 15 and 20 GPM are available in Model No. 100-1C. See Table C. Flow rates for 1/2" Brass 0.25 to 10 GPM See Table A & B
- (2) Maximum number of flow inserts in a given nipple size. Flow Controls can be made with fewer flow inserts, for less flow than minimum listed. Indicated prices will apply.
- (3) Installs between two standard flanges, bolts must be a minimum of 1" longer than normally required. Gasket required on both sides.

When ordering specify Model No. and flow rate.

The Buna flow control inserts are not recommended for DI regenerant chemicals. Call for pricing on special DI flow controls.

Standard, Side Loader & Salt Carts

- 1" x 14 gauge (.083) cold rolled steel tubing
- Mig Welded
- Black texture - powder coated
- 3/4" solid steel axle
- 12" pneumatic slick wheels with 3 piece hubs and roller bearings
- Capacity 800#
- UPS shippable (45x20x17)
- Tank cart heights measured in laid back position. This must be taken into account when comparing height to other carts
- Specially designed to cradle mineral & resin tanks
- **#500008 Optional salt plate for standard style carts \$50.38**
Attaches & detaches in seconds
12" x 20"

Tank Carts

Standard Tank Cart

#500000 - \$374.20
21"W x 45"H; 35 lbs
Tanks up to 12" diameter

Standard Tank Cart without bottom loops

#500010 - \$374.20
21"W x 45" H; 34 lbs Tanks
up to 10" diameter

Large Tank Cart

#550000 - \$379.27
24"W x 45"H; 36 lbs
Tanks up to 18" Diameter

Double Tank Cart

#560000 - \$402.15
26"W x 46"H; 51 lbs
Two Tanks up to 12"
Diameter One Tank up to 30"
Diameter

Salt Cart

#570000 - \$374.88

- 21.5"W x 49"H
- 32 lbs
- 10" Pneumatic treaded tires
- 500# capacity, aluminum construction, stair climbers, wheel guards, curved back. Bottom plate 12" x 14"

Side Loader Carts

9" Sideloader

#500020 - \$374.20
20"W x 44"H; 29 lbs
Tanks up to 9"
diameter

14" Sideloader

#500030 - \$391.95
23.5"W x 44"H; 34 lbs
Tanks up to 14"
diameter

Bottle Water Cart - 3 Position

#520000 - \$763.31

- Easily converts from standard 2-wheel to 4-wheel inclined to 4-wheel platform truck. Carries up to 12 bottles.
- Option - Slick Tires \$101.00
- Flat Free Tires - \$35.75
- Other wheels and handle styles available

2 Wheel Dimensions: 51" H x 21" W

- Capacity: 500# Weight: 43#
- Bottom Plate: 18"W x 7.5" D
- Recessed nose: 9"W x 27" D (300# Capacity)

4 Wheel Dimensions: 40"H x 21"W x 54"L

Capacity: 750# Weight: 43#

5-Bottle Hand Truck

#510000 - \$523.13

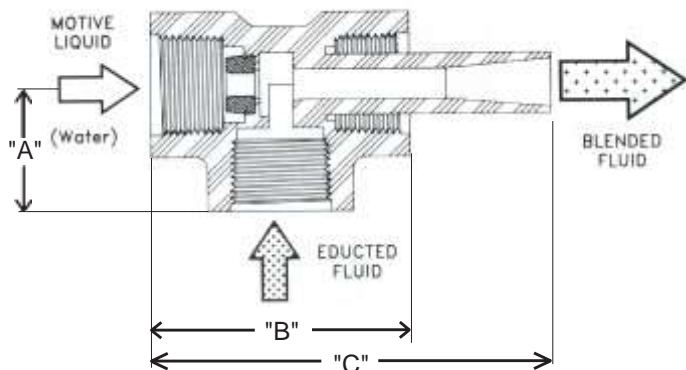

Non-slip trays easily fold to convert this cart to a standard hand truck.

- Dimensions: 21.5"W x 49" H
- Capacity: 500#
- Frame Material: Aluminum
- Weight: 28#
- Bottom Plates: 14"W x 12"D
- Tires: 10" Treaded Pneumatic

Options

- 8" Hard tires deduct \$20.00
- Slick tires - Used where tracking dirt is a concern - \$101.00
- Flat Free Tires - \$35.75
- Stair climbers - Greatly improves deliveries where there is a need to navigate stairways - \$38.00
- Additional handle and tires styles available - Call for pricing

Fully Automatic Water Jet Eductor

- Flexible flow control orifice automatically maintains a constant liquid flow regardless of variations in inlet water pressure
- Corrosion resistant materials of construction: eductor body: schedule 80 polyvinylchloride; PVC Type 1, Grade 1; Flow control insert: precision molded buna (N)
- Wide operating pressure range: 30-120 PSIG; Maximum operating temperature: 100 degrees Fahrenheit
- Standard models available from stock; custom configurations available on request
- Other materials of construction available.

IMPORTANT APPLICATION NOTES: These eductors are designed for operation with water as the operating medium. All applications should be carefully tested for flow characteristics and compatibility of the motive liquid and educted chemicals to insure desired results. Swelling of the flow control insert in certain liquids will result in loss of flow rate accuracy.

Model Number	Motive Water Flow Rate	Pipe Size (NPT)	Dimensions (Inches)		
			"A"	"B"	"C"
0.9 - 050 1.2 - 050 1.4 - 050 2.0 - 050	0.9 GPM 1.2 GPM 1.4 GPM 2.0 GPM	1/2"	1.35	2.74	--
2.5 - 075 3.5 - 075 5.0 - 075	2.5 GPM 3.5 GPM 5.0 GPM	3/4"	1.62	3.22	4.40
7 - 100 10 - 100	7 GPM 10 GPM	1"	1.85	3.64	5.45
12 - 150 15 - 150 20 - 150	12 GPM 15 GPM 20 GPM	1-1/2"	2.09	4.16	6.05

NOTES: Data based on: 1) Motive water flow rate +/- 10 percent @ 30-120 PSIG and 60 degrees F. 2) Motive liquid: Educted liquid = 1:1 with educted fluids similar to water (e.g. Sp.Gr = 1.0 and viscosity = 1.0 Centipoise @ 60 degrees F.) 3) Suction lift = 4.0 Ft and discharge head = 0 Ft.

Typical Water Softener Applications

Tank Dia.	Area Sq. Ft.	Resin Volume, Cu. Ft.		Eductor Model No:	Rinse GPM

12-150	1-1/2	63.96
15-150	1-1/2	63.96
20-150	1-1/2	63.96

(1) Based on 24" minimum bed depth.

(2) At minimum 0.25 GMP/Cu. Ft. rinse rate.

(3) Regeneration with saturated salt (NaCl) brine as the educted liquid will yield brine flow < rinse flow. The ratio is dependent on many factors including discharge head (pipe design, bed depth, installation, etc.) and suction lift (brine valve design and size, installation, etc.)

Note: Above eductors not recommended for use with DI regen chemicals. Call for special DI eductor pricing.

No Adjustable Throat or Nozzle.

00-200	2"	122.09
00-250	2.5"	203.10
